Liver, Kidney and Pancreas Transplant

Access Surgery / Liver Disease Management and Surgery

Jeremy Taylor, MD, Kidney/Pancreas Transplant Medical Director

601 Elmwood Avenue, Rochester, NY 14642

02/08/2024

**One extra living donor graft loss was mistakenly included in NYFLs survival numbers. Our program recalculated the one-year living donor graft survival rate to correct the error (pg. 31 of the report):**

- 98.5% estimated probability of surviving with a functioning graft at 1 year
- 0.77 estimated hazard ratio of graft failure at 1 year

The January 2024 reports could not be updated before publication; the graft failure numbers will be correct in upcoming reports.

Please contact our program with any questions: 585-275-7753
